Zebra Z1 kite only

Artikel info:Zebra Kites

Libre power does the kite sails sales of China-based ZebraKites. This is a kite company that created and built innovative 2-Line mats for the Chinese market.

The first 4-line construction of ZebraKites the Z1. The Z1 is a good-natured intermediate kite, which is in terms of performance on the starter kit. The Z1 is perfect for kite buggy. Through full background printing and the gentle pressure build the Z1 is also perfectly suited for the ATB-boarding.

They just use high quality materials. The cloth is a 42 grams, double coated, Toray-cloth. All Dyneema lines are sheathed and have hang-standard. All lines on the sail-fasteners are increasingly expensive and guarantee a long life.

Given the success of the Z1 series, as well as strong demand from the kite scene, we now have the range of Z1 to expand the size of 10.0. The new Z1 size 10.0 is available now. Compared to the smaller sizes Z1, which have a lower aspect ratio, the new Z1 has a slimmer 10.0 wing with more stretching. Thus, it has very good handling characteristics on all courses and is already looking forward to the direct competitor comparison in the Intermediate class. The high performance, stability, and folding the figure is estimated super handling of the Z1 series will also make the new size 10.0 Z1 a loyal companion on sand, snow and grass.
